Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5, 29 and 30 are rejected under 35 U.S.C. 103(a) as being unpatentable over U. S. Patent No. 5,506,887 to Emery et al. in view of the examiner taking official notice.

As per claims 1 and 29, Emery et al. disclosure performing an authentication procedure (see at least the abstract). The examiner takes official notice that it is well known to deny the mobile unit access to the network and provide an announcement to the mobile unit since these features comprise well known network architecture.

As per claims 2-5, 30, the examiner takes official notice for routing the call to a customer service center, reprogramming the mobile unit with correct data, transmitting a message requesting the authentication procedure, receiving a response message containing authentication information and the authentication information is a random number.

Claims 6, 7, 9, 31, 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Emery et al. as applied to claims 1-5 and 29 above, and further in view of U.S. Patent No. 5,890,075 to Cyr et al.

Art Unit: 2132

As per claim 6, Cyr et al. disclose calculating a first shared secret data by the mobile unit, calculating a second shared secret data by a center, and comparing the first shared secret data and the second shared secret data to determine the authentication failure.

As per claims 7, 9, 31 and 33, Cyr et al. disclose transmitting an authentication status report result, the authentication status report return result including a deny access parameter and an announcement list parameter.

Allowable Subject Matter

Claims 10-28 are allowed.

Claims 8 and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas R. Peeso whose telephone number is 703 305-9784. The examiner can normally be reached on Mon.-Thur, 7:00 to 4:30 and alternate Fridays.
